

It is our goal to provide SCA scholars daily access to innovative and relevant learning environments.

Our outdoor learning lab will foster hands-on learning, environmental responsibility, and true connection to the content our scholars are studying. Flip over for information & check out our master plan below:

THANK YOU FOR YOUR SUPPORT!

Cash or check will be accepted. Please make checks payable to SCA and write Outdoor Learning Lab on the memo line. Please send cash in an envelope marked Outdoor Learning Lab.

To request a donation receipt, please email Angela Chastain:

I want to support the Outdoor Learning Lab at the following level: (circle one)

Spread the Love - \$10

Shining Sun - \$25

Spread Your Wings - \$50

Go Green - \$100

Jump for Joy - \$150

Bon Appetite - \$250

Habitat Hero - \$500

Other Amount _____

Every Gift Matters!

Please return this portion of the form with your contribution.

THANK YOU FOR YOUR SUPPORT!

HELP SCA BUILD OUR

**OUTDOOR
LEARNING
LAB**

EVERY GIFT MATTERS!

By contributing to our Outdoor Learning Lab you are supporting deeper learning for your scholar and making a lasting impact on thousands of children for years to come.

\$10 - Spread the Love

Your generous donation will help provide paths, irrigation, electricity, sod and mulch - the backbone of the lab.

\$25 - Shining Sun

Help us construct our sundial and weather station. Kindergarten scholars study weather during their 2nd EL module.

\$50 - Spread Your Wings

By constructing a butterfly & pollinator garden, our second grade scholars will study the process of pollination and get a hands-on approach to their 4th EL module.

\$100 - Go Green

No outdoor learning lab would be complete without a garden, greenhouse, & compost bins. All scholars will benefit from planting and harvesting plants, fruits & vegetables.

\$150 - Jump For Joy

Your contribution will get us one step closer to our Frog Pond! Third grade scholars become experts on frogs and their life cycles during their 1st EL module.

\$250 - Bon Appetite

Cooking incorporates art and science! Your contribution will provide an outdoor kitchen area that will be utilized by all scholars to practice both the art and science of cooking!

\$500 - Habitat Hero

Make the largest & most lasting impact by becoming a Habitat Hero! The lab will contain the 4 main habitats of Georgia - Coastal Plain, Marsh & Swamp, Piedmont & Mountains. Help us purchase & install the shrubs, plants, & trees
